EDUCATION

Year	Degree/Exam	Institute	CGPA/Marks
2021	B.tech. in Mechanical Engineering	IIT Kharagpur	CGPA: 6.8
2017	All India Senior School Certificate Examination	JNV Kottayam	90%
2015	All India Secondary School Examination	JNV Ranchi	CGPA: 10

Work Experience

Oorja – Full Stack Developer2024 - Present

- Integrating sophisticated physics-based mathematical models and simulations into the application, ensuring accurate and data-driven insights for users in the battery engineering domain.
- Developing robust REST APIs using Python to facilitate seamless backend functionalities, allowing efficient data retrieval, processing, and analysis.
- Leading the frontend development using Angular, ensuring a smooth and intuitive user interface that enhances user experience while interacting with complex battery simulations.
- Implementing advanced data visualization techniques using Plotly to enable users to analyze a wide range of plots, interpret key performance indicators, and visualize simulation results effectively.
- Deploying and managing applications on Google Cloud Platform (GCP), ensuring scalability, reliability, and efficient cloud infrastructure management.
- Utilizing GitHub Copilot to accelerate development workflows, improve code productivity, and maintain code quality across repositories.
- Enhancing the overall system performance by optimizing database queries, minimizing latency, and improving data-handling capabilities to ensure efficient processing of large datasets.
- Collaborating closely with battery engineers, data scientists, and stakeholders to align software development with business goals, ensuring the application meets real-world industry requirements.

Better Wealth Technologies Pvt. Ltd.2021 - 2023

Full Stack Developer

- Designed, developed, and deployed a robust real-time alert system leveraging Amazon Simple Queue Service (SQS) and Twilio, ensuring immediate notifications for critical financial market events. This significantly enhanced the responsiveness of the system and improved customer engagement.
- Led the development of a dynamic and highly interactive landing page for a stock advisory platform, incorporating interactive tables, advanced filtering options, real-time search functionality, pagination, and sorting mechanisms. This improved the platform's usability and user retention.
- Implemented engaging and intuitive pop-up forms that streamlined user interaction, enhancing user experience and boosting conversion rates.
- Integrated Google Analytics and Google Tag Manager to monitor and analyze user behavior on the website. Configured custom tracking events and goals to gain insights into user interactions and engagement. Collaborated closely with the marketing team to set up conversion tracking for key performance indicators, optimizing decision-making processes.
- Developed and maintained an efficient admin dashboard for user management using React.js and Node.js. Integrated authentication mechanisms, data visualization components, and CRUD (Create, Read, Update, Delete) operations to facilitate seamless user and data management.

AWARDS AND ACHIEVEMENTS

- Achieved a top-ranking position in the highly competitive IIT Joint Entrance Examination (JEE), securing a seat in the prestigious Mechanical Engineering Department at IIT Kharagpur (2017), demonstrating exceptional problem-solving skills and technical aptitude.
- Awarded the prestigious Dakshana Scholarship, a highly selective program where less than 1% of students qualify through the rigorous GDST examination (2015). This scholarship provided intensive coaching and mentorship, equipping students with the knowledge and skills required for premier engineering entrance exams.

SKILLS AND EXPERTISE

Programming Languages: C++, JavaScript, TypeScript, Python, MATLAB, SQL;
Frontend & Backend Development: React.js, Next.js, Angular, Node.js, Express.js, NestJS, Flask, MongoDB;
DevOps, Tools & Productivity: Docker, Microservices, Git, GitHub Copilot;
System Design & Architecture: REST APIs, Scalable System Design, Database Optimization, Distributed Systems, Authentication & Authorization;
